

Chicago Oral Surgeon Gains Position As Approved Speaker For Nobel Biocare Dental Implant Company

Dr. Steven A. Koos D.D.S., M.D., a Chicago Oral Surgeon, joins a distinguished panel of speakers from around the globe, as an approved and certified Nobel Biocare® clinician lecturer who can offer continuing education credits to general dentists for his expertise with dental implants, bone grafting and the All-on-4 "Teeth in a day" technique.

Online PR News – 06-December-2010 –Chicago, IL – Dr. Steven A. Koos D.D.S., M.D., a [Chicago Oral Surgeon](#), joins a distinguished panel of speakers from around the globe, as an approved and certified Nobel Biocare® clinician lecturer who can offer continuing education credits to general dentists for his expertise with dental implants, bone grafting and the All-on-4 "Teeth in a day" technique.

Dr. Koos is one of a select few dual-degree oral and maxillofacial surgeons in the nation who has obtained both dental and medical degrees. His extensive education, training, and experience makes him an expert in all phases of oral and maxillofacial surgery, however, his primary practice focus is dental implants, bone augmentation (grafting), wisdom teeth extraction, and sedation and general anesthesia. Dr. Koos, the founder of the nation's first and only 'green' oral surgery facility - ORA Oral Surgery & [Dental Implant Studio in Chicago](#), has been placing dental implants for over a decade now and sub-specializes in implantology. He is a member of the International Congress of Oral Implantologists, the American Academy of Implant Dentistry, and the Computer Aided Implantology Academy. "I am proud to be recognized amongst the leaders in the dental implant field and to be affiliated with the world's largest dental implant company – Nobel Biocare."

"Everyday I see the difference of how dental implants can improve a patient's life, restore their smile and confidence, and give people normal dental function again to enjoy food" Dr. Steven Koos ascertains. Dental implants offer patients a better solution to replacing teeth than traditional destructive dental bridgework. They can also stabilize otherwise loose dentures for patients as well as eliminate the need for having removable dentures entirely. Allison Zigich, Director of Training and Education Nobel Biocare USA, is "happy to have clinician's such as Dr. Koos - with his credentials, many years of dental implant research, and clinical experience placing thousands of dental implants - on board with Nobel's educational endeavors."

Dr. Steven Koos is an eco-friendly [oral surgeon in Chicago](#). His practice, ORA Oral Surgery & Dental Implant Studio, located in Chicago, offers a luxurious and comfortable patient-centered atmosphere with a focus towards exceptional health care and eco-consciousness. For more information about the Chicago oral surgeon and his unique South Loop oral surgery and dental implant practice, visit <http://orasurgery.com>.
