Online PR News – 11-June-2012 –Chicago, IL – Dr. Steven Koos, a Chicago Loop oral surgeon and owner of ORA® Oral Surgery & Implant Studio, is pleased to announce the introduction of an exciting new promotion being offered during the summer of 2012. The [Chicago oral surgeon](#) is offering a free Apple 16GB iPad® (with WiFi) to any patient undergoing a wisdom tooth removal procedure in Chicago at ORA® Oral Surgery & Implant Studio, as long as the patient meets the basic eligibility criteria.

ORA® is proud to offer the new Apple iPad® to patients having their wisdom teeth extracted. The offer is revolutionary and the new iPad is "revolutionary". This is the first promotion of its kind for those considering removal of their [wisdom teeth in Chicago](#). There is no fine print to this promotion and the details are simple. Any patient that has all four of their wisdom teeth removed with sedation by Dr. Koos following a consultation and diagnostic films, and does not utilize dental or medical insurance for the procedure, will receive a new third-generation Apple iPad® (16GB WiFi model).

The offer is good throughout the entire summer. Patients do not have to have the procedure completed by the end of the promotion, but rather must simply schedule an appointment for the procedure by the end of the promotion period. Once the wisdom tooth extraction procedure is complete, eligible patients will have the opportunity to specify a color preference (white or black) for their new iPad®. Then, all that's left to do is to wait for ORA® to receive delivery (which may take up to four weeks) and patients can pick up their new iPad® from ORA®'s South Loop oral surgery office in downtown Chicago.

"We are proud to offer such an enticing promotion to our patients," explains Chicago oral surgeon, Dr. Steven Koos. "We understand that many patients get busy over the summer months and tend to put aside their dental health, or other procedures or appointments that they would rather not deal with until a later time. But our new promotion now offers residents of Chicago needing wisdom teeth removal a win-win scenario. They no longer have an excuse to put off a procedure that needs to get done and by addressing their dental health needs sooner rather than later, they are rewarded with a brand new Apple iPad®. What could be sweeter than that?"

Dr. Koos practices all types of oral surgery in Chicago at his practice ORA® Oral Surgery & Implant Studio. In addition to wisdom tooth removal, Dr. Koos offers dental implants, bone grafting, TMJ therapy, jaw surgery, dentures and All-on-Four, as well as sedation dentistry. All services are provided in a patient-centered, tranquil atmosphere focused on a commitment to exceptional care, patient comfort and environmental responsibility.

Apple's third generation iPad® has been called "brilliant in every sense of the word". The newest version of the device features improvements in the display, camera and wireless connection features, enhancing the hands-on experience even more than previous versions have done before. Apple® and iPad® are registered trademarks of Apple, Inc. Apple, Inc. does not support or endorse any portion of this promotion or the services of ORA® Oral Surgery & Implant Studio.

###

Dr. Steven Koos, an oral surgeon in Chicago's South Loop neighborhood, is owner of ORA® Oral Surgery & Implant Studio. The promotion offered by the [Chicago Loop oral surgery](#) practice is good throughout the summer of 2012 and is based on a patient having all four of their wisdom teeth removed without utilizing dental or medical insurance to cover the cost of the procedure. If patients meet eligibility requirements, they will receive the newest version of the Apple iPad®, the 16GB WiFi third-generation model in either black or white.
